SUBJECT INDEX

A

A-H interval, in bifascicular block, 141
A-V block, due to myocardial ischemia, 495
A-V block, familial, 441
A-V block, in bifascicular block, 141
A-V block, in dystrophia myotonica, 571
A-V conduction, inhibition on, by L-Penbutolol and DL-Propranolol, 603
A-V conduction, effects of pindolol on, 537
Acetylcholin, constriction of coronary artery, 75
Adams-Stokes syndrome, in primary pulmonary hypertension, 765
Adenosine, effects of, on myocardial oxygen tension, 867
Adrenergic actions, alpha and beta, relations to monophasic action potential duration, 477
Adrenergic alpha-receptor, blocking action of atropine, 75
Aldosterone, response to dietary sodium and posture, 631
Aminoguanidine, effects of, on release of histamine and norepinephrine from the heart, 183
Aminophylline, ventricular fibrillation induced by, 177
Angina pectoris, at rest, effect of diltiazem on, 613
Angina pectoris, variant form of, effect of atropine on, 75
Angiocardiography, in pseudoaneurythm of the left ventricle, 95
Angiosarcoma, primary, of left atrium, metastasized to brain, 375
Angiotensin-converting enzyme inhibitor (SQ 14,225), effect of, on regional blood flow, 367
Angiotensin II, echocardiographic changes induced by, in detection of latent cardiac failure, 407
Angiotensin II, effects of, on pulmonary arterial prostagrandine E and pulmonary circulation, 195
Aortocoronary bypass, ultrasound evaluation, 823
Arrhythmia, in primary pulmonary hypertension, 765
Arrhythmia, in Tetralogy of Fallot, 53
Arrhythmia, reentrant, treated with Verapamil, 789
Arterial pressure changes, effects of indomethacin on renal hemodynamic alterations caused by, 523
Atherosclerosis, effect of onion and garlic in inhibition of, 351
Atropine, effectiveness of, on variant form of angina pectoris, 75

B

Beta-Glucuronidase, in evolution of myocardial infarction, 643
Bifascicular block, electrophysiologic study and prognosis of, 141
Blood flow, organ, effet of angiotensin-converting enzyme inhibitor (SQ 14, 225) on, 367
Blood pressure, after injection of chlorpromazine, 33
Body fluid disturbance, estimation of, 853
Body water contents, estimation of, with plasma sodium, protein concentrations and hematocrit, 853
Bradykinin, effects of, on the release of histamine and norepinephrine from the heart, 183

C

Calcium ion, relation to monophasic action potential dulation, 477
Cardiac hypertrophy, heart weight in, 63
Cardiac index, after injection of chlorpromazine, 33
Cardiomyopathy, left ventricular thrombi in, 675
Cathepsin D, in evolution of myocardial infarction, 643
Chlorpromazine, arrhythmia induced by, 657
Chlorpromazine, treatment of acute left-sided heart failure with, 33
Circumferential fiber shortening velocity, in anesthetized and conscious canine, 359
Common atrial chamber, in conjoined thoracopagus twins, 897
Compartment model, formula for the estimation of change in water and salt contents of the body based on, 853
Compound 48/80, effect of, on the release of

histamine and norepinephrine from the heart, 183
Concealment, of ectopic activities in ventricular parasystole, 843
Conjoined thoracopagus twins, cardiovascular anomalies in, 897
Coronary arteriogram, in variant form of angina, before and after Diltiazem administration, 83
Coronary artery, constriction of, depressed by atropine, 75
Coronary collateral circulation, factor to modify the ischemic injury, 485
Coronary constriction, effect of, on the flow reserve in regional myocardium, 207
Coronary flow, after the injection of Diltiazem, 83
Coronary risk factors, in sudden death, 385
Cyclic AMP, myocardial, in ventricular fibrillation induced by aminophylline, 177

D

Dehydration, formula for the estimation of change in water and salt contents of the body based on, 853
Dextran, effects of, on the release of histamine and norepinephrine from the heart, 183
Digitoxin, serum concentration of, 623
Digoxin, serum concentration of, 623
Diltiazem, effect of, on angina pectoris at rest, 613
Diltiazem, effect of, on coronary hemodynamics, 83
Dopamine-beta-hydroxylase, in essential and secondary hypertension with respect to aging and hypertension severity index, 307, 321
Dopamine-beta-hydroxylase, in response to cold stimulus, 301
Doppler ultrasound, evaluation of aortocoronary bypass, 823
Dystrophia myotonica, electrophysiological studies in, 571

E

Ebsteins anomaly, morphological findings in, 43
Echocardiogram, after pericardiectomy, 1
Echocardiogram, in determination of left ventricular diastolic compliance 461
Echocardiogram, of right ventricular anterior wall motion in WPW syndrome, 577
Echocardiography, a-dip on pulmonary valve echogram in constrictive pericarditis, 419
Echocardiography, cross-sectional, in left ventricular thrombi, 675
Echocardiography, cross-sectional and M-mode in ventricular septal defect, 127
Echocardiography, in detection of latent cardiac failure, 407
Echocardiography, in patients with Lillihei-Kaster aortic valve, 277
Echocardiography, in pseudo aneurysm of left ventricle, 95
Echocardiography, of right ventricular wall thickness, 289
Ejection fraction, in anesthetized and conscious canine, 359
Electrocardiogram, epicardial, effects of free fatty acid on, 557
Electrocardiogram, in LBBB and anteroseptal myocardial infarction, 7
Endocardial fibroelastosis, left ventricular thrombi found in, 675
Endocarditis, produced with candida albicans, 427
Entrainment, of ectopic activity in ventricular parasystole, 843
Enzyme activity, for energy production, in myocardium and conduction system, 667

F

False tendon, inhomogeneous spread of excitation in, 511
Familial conduction disturbance, 441
Flavin-adenin-dinucleotide, protection of chlorpromazine-induced arrhythmia by, 657
Flow reserve, effect of coronary constriction on, in regional myocardium, 207
Force-frequency relationship, influence of ouabain on, 341
Foreign body, in main pulmonary artery, 381
Free fatty acid, effects of, on infarcted myocardium, 557
Furosemide stimulation, plasma renin activity, 765

G

Garlic, effect on inhibition of atherosclerosis, fibrinolytic activity and hypolipaemic action of, 351
Glucose, effect of, on infarcted myocardium, 557
Glucosephosphate dehydrogenase, in myocardium and conduction system, 667
Glycyl-prolyl-p-nitroanilidase (GPNAase), in acute myocardial infarction and congestive

heart failure, 469
Graft patency, ultrasound evaluation of, 823
Great vessel transposition, in conjoined thoracopagus twins, 897

H

H-V interval, in bifascicular block, 141
Handgrip exercise test, and systolic time intervals in progressive muscular dystrophy, 23
Heart block, familial, 441
Heart failure, congestive, glycyl-prolyl-p-nitroanilidase (GPNAase) activity in, 469
Heart failure, latent, detected by angiotensin-induced echocardiographic changes, 407
Heart failure, left-sided, treated with chlorpromazine, 33
Heart weight, cardiothoracic ratio, multivariative analysis and theory of quantification, 105
Heart weight, estimated by chest X-ray film, 105
Heart weight, in assessing cardiac hypertrophy, 63
His bundle electrocardiography, in dystrophia myotonica, 571
His-Purkinje, conduction defects, due to myocardial ischemia, 495
His-Purkinje, reentry, due to myocardial ischemia, 495
Histamine, release of, from the heart, by nerve stimulation and drugs, 183
Hypertension, essential, dopamine beta-hydroxylase activity in, 321
Hypertrophic cardiomyopathy, mid ventricular obstruction, 117
Hypothermic anoxic arrest, effects of, on myocardial contractility, 803
Hypoxia, increasing interstitial tissue and loss of myocardial fiber due to, in Tetralogy of Fallot, 53

I

Indomethacin, effects of, on the pulmonary arterial prostaglandin E and pulmonary circuration, 195
Indomethacin, effects of, on renal hemodynamic alterations caused by arterial and ureteral pressure changes, 523
Infarct size, effects of free fatty acid on, 557
Inotropy, negative, of frequency increases, ouabain-dependent, 341
Interventricular septum, in cardiac hypertrophy, 63
Isoniazid, effects of, on the release of histamine and norepinephrine from the heart, 183
Isoproterenol, effects of, on the myocardial oxygen tension, 867

L

Lanthanum contracture, relaxation of, by 2-Nicotinamidoethyl nitrate (SG-75), 881
Left bundle branch block, surface potential distribution in, 7
Left bundle branch block, clinicopathological study on 25 cases of, 163
Left ventricle plus septum / right ventricle ratio, in cardiac hypertrophy, 63
Left ventricular, diastolic compliance, indicated by the log-log relationship between A wave obtained from apexcardiogram and the minor axis obtained by echocardiography, 461
Left ventricular, ejection time, in progressive muscular dystrophy, 23
Left ventricular, filling pressure after injection of chlorpromazine, 33
Left ventricular, function and power distribution during ejection period, 813
Left ventricular, thrombi, found with cross-sectional echocardiography, 675
Lidocaine, refractory period of atrium, A-H and H-V intervals, following administration of, 271
Limb blood flow, response of, to cold stimulus, 301
Lillehei-Kaster aortic valve, echo-and phonocardiographic studies in patients with, 277
Lysosome, activation of, in evolution of myocardial infarction, 643

M

Midventricular obstruction, echocardiography, hemodynamics and biventricular angiography in, 117
Mitochondira, function of, effects of free fatty acids on, 557
Mitochondria, impaired function of, by chlorpromazine, 657
Monophasic action potential duration, relation to α-and-β adrenergic actions, and calcium ion, 477
Myocardial contractility, protected by topical hypothermia, 803
Myocardial factor, ventricular dysfunction in Tetralogy of Fallot, 53
Myocardial flow, local, measured with heated

crossthermocouple method, 207
Myocardial infarction, activation of lysosomes in, 643
Myocardial infarction, acute, glycyl-prolyl-p-nitroanilidase activity in, 469
Myocardial infarction, hemodynamic effects of pentazosine in, 253
Myocardial infarction, LBBB, 7, 163
Myocardial infarction, resulting from coronary spasm, 907
Myocardial infarction, vectorcardiogram and computer analysis in, 587
Muscarine reseptor, blocking action of atropine, 75
Myocardial oxygen extraction ratio, after Diltiazem administration, 83
Myocardial protection, of topical hyperthermia on anoxic heart, 803
Myocarditis, in Rubella, 227

N

Na^+-K^+-ATPase, inhibition of, force-frequency relationship, 341
2-Nicotinamidoethyl nitrate (SG-75), effects of, on coronary vasodilatation, inhibition of papillary muscle contraction, 549
2-Nicotinamidoethyl nitrate (SG-75), effects of, on myocardial O_2 consumption, myocardial redox potential (ΔEh), venous return, cerebral blood flow, cerebro-spinal fluid pressure, 881
2-Nicotinamidoethyl nitrate (SG-75), calcium-antagonistic action of, 549, 881
Nitroglycerin, effects of, on the myocardial oxygen tension, 867
Norepinephrine, constriction of coronary artery, 75
Norepinephrine, effects of, on the myocardial oxygen tension, 867
Norepinephrine, effect of triiodethyronine on chronotropic and inotropic actions of, 219
Norepinephrine, release of, from the heart, by nerve stimuration and drugs, 183

O

Oleic acid, effects of, on infarcted myocardium, 557
Onion, effect on inhibition of athelosclerosis, fibrinolytic activity and hypolipaemic action of, 351
Ouabain, influence of, on force-frequency relationship, 341

P

Palmitic acid, effects of, on infarcted myocardium, 557
Paradoxical septal motion, after pericardiectomy, 1
Parasystole, ventricular, supressed by cardiac pacing, 843
L-Penbutolol, antiarrhythmic effects of, 603
Pentazocine, hemodynamic effects of, in acute myocardial infarction, 253
Pericarditis, constrictive, presystolic pulmonary valve opening in, 419
Pericarditis, in rubella, 227
Pericardiectomy, echocardiogram after, 1
PEP/LVET, in progressive muscle dystrophy, 23
Phenoxybenzamine, effect of, on the pulmonary vascular bed in surgically corrected ventricular septal defect associated with pulmonary hypertension, 157
Phonocardiography, frequency spectrum analysis in, 333
Phonocardiography, in patients with Lillihei-Kaster aortic valve, 277
Pindolol, effects of, on atrioventricular conduction, 537
Plasma renin activity (PRA), after administration of Furosemide, 153
Plasma renin activity (PRA), in normal men, 777
Power, peak, 813
Power, left ventricular, output distribution during ejection period, 813
Preejection period, in progressive muscle dystrophy, 23
Pre-excitation, right ventricular, in WPW syndrome, 577
Premature ventricular contraction, sudden death among patients with, 385
Presystolic pulmonary valve opening, in constrictive pericarditis, 419
Primary pulmonary hypertension, arrhythmia in, 765
Progressive muscular dystrophy, systolic time intervals in, 23
Polymyxin B, effects of, on the release of histamine and norepinephrine from the heart, 183
Propranolol, effect of, on left ventricular function at rest and during exercise in ischemic heart during exercise in ischemic heart

disease, 261
DL-Propranolol, antiarrhythmic effects of, 603
Prostaglandin E, effects of angiotensin II and Indomethacin on, 195
Prostaglandin E_1, effects of, on pulmonary circulation, 195
Prostaglandin E2α, effects of, on pulmonary circulation, 195
Pseudo aneurysm, of the left ventricle, diagnosed by echocardiography, radioisotope scintigraphy and angiocardiography, 95
Pudenz catheter, dislodged, removed from main pulmonary artery, 381
Pulmonary arterial pressure, rise in, by angiotensin II and indomethacine, 195
Pulmonary hypertension, primary, hemodynamics in, 395
Pulmonary vascular resistance, effect of phenoxybenzamine on, in surgically corrected ventricular septal defect associated with pulmonary hypertension, 157
Pulmonary vascular resistance, rise in, by angiotensin II and indomethacin, 195
Purkinje fibers, inhomogeneous spread of excitation in, 511

Q

QRS polar vector, in myocardial infarction, 587

R

Radioisotopic scintigraphy, in pseudoaneurysm of the left ventricle, 95
Reactive hyperemia, duration of, prolonged by an increment of the constriction, 207
Refractory period, prolonged by Verapamil, 789
Refractory period, of right atrium and atrioventicular node in bifascicular block, 141
Renin, response to upright posture, in varying sodium balance, 777
Renin-Aldosterone, responses to dietary sodium and posture, 631
Rheumatic fever, natural history of, in the Orient, 237
Rheumatic heart disease, natural history of, in the Orient, 237
Rheumatic mitral valvitis, primary angiosarcoma of left atrium with, 375
Right bundle branch block, complete, histopathological study, configulation of QRS complex, 831
Right heart failure, in primary pulmonary hypertension, 395
Rubella, with cardiac involvement, 227

S

Salt contents, estimation of, with plasma sodium, protein concentrations and hematocrit, 853
Salt depletion, formula for the estimation of changes in water and salt contents of the body based on, 853
Serum albumin, its correlation to serum digitoxin level, 623
SG-75, see 2-Nicotinamidoethyl nitrate
SHR (spontaneously hypertensive rat), proceeding of, 681
Sick sinus syndrome, familial, 441
Sinus arrest, familial, 441
Sinus bradycardia, familial, 441
Sinus node dysfunction, in bifascicular block, 141
Silent zone, in ventricular parasystole, 843
SQ 14, 225, see angiotensin-converting enzyme inhibitor, 367
ST-elevation, modification of, by coronary collateral circulation, 485
Sudden death, among patients with premature ventricular contractions, 385
Sudden death, in primary pulmonary hypertension, 765
Sudden death, in Tetralogy of Fallot, 53
Surface potential distribution, in left bundle branch block, 7
Supraventricular arrhythmias, in primary pulmonary hypertension, 765
Sympathetic nerve activity, dopamine beta-hydroxylase activity as an indicator of, 322
Syncopal attacks, in primary pulmonary hyptertension, 765
Systolic time intervals, in progressive muscular dystrophy, 23
Systolic time intervals, in patients with Lillihei-Kaster aortic valve prosthesis, 217

T

Tachycardia, supraventricular, treated with Verapamil, 789
Tetralogy of Fallot, anatomic correlate of ventricular dysfunction in, 53
Triiodothyronine, chronotropic and inotropic effects of, 219

U

Ureteral pressure elevation, effects of indomethacin on renal hemodynamic alterations caused by, 523

V

Variant angina, effect of diltiazem on, 613
Variant angina, with normal coronary arteriogram, acute myocardial infarction and cerebral embolism, 907
Vasoconstriction, reflex, to cold stimulus, 301
Vasodilator, treatment of left-sided heart failure with chlorpromazine, 33
Vectorcardiogram, computor analysis of, in myocardial infarction, 587
Ventricular arrhythmia, in primary pulmonary hypertension, 765
Ventricular fibrillation, induced by aminophylline, 177
Ventricular, load, power output, 813
Ventricular septal defect, correction of, effects of phenoxybenzamine on the pulmonary vascular bed, 157
Ventricular septal defect, cross-sectional and M-mode echocardiography in, 127
Ventricular septal defect, patch echo in the postoperative patients, 127
Ventricular septal defect, in conjoined thoracopagus twins, 897
Ventricular tachycardia threshold, effects of L-Penbutolol and DL-Propranolol on, 603
Verapamil, effects on children, reentrant supraventricular arrhythmia, 789

W

Water depletion, formula for the estimation of changes in water and salt contents of the body based on, 853
WPW syndrome, right ventricular anterior wall motion in, 577
WPW syndrome, with attacks of paroxysmal atrial fibrillation, familial, 441

CONTENTS

Number 1, January

The Echocardiogram after Pericardiectomy. *Bahram Eslami, David Roitman, Robert B. Karp, and L. Thomas Sheffield* 1

Surface Potential Distribution on the Human Thoracic Surface in Left Bundle Branch Block. *István Préda, István Bukosza, György Kozmann, Vsevolod V. Shakin, Adám Székely, and Zoltán Antalóczy* 7

Systolic Time Intervals in Progressive Muscular Dystrophy. *Shuzo Matsuo, Yasuhiko Oku, Reiko Oshibuchi, and Kunitake Hashiba* 23

Treatment of Acute Left-Sided Heart Failure with Intramuscular Injection of Chlorpromazine. *Junichiro Mifune, Kizuku Kuramoto, Keiji Ueda, Satoru Matsushita, Iwao Kuwajima, Makoto Sakai, Tsutomu Iwasaki, Hiroshi Inoue, Tatsuo Shinagawa, and Mototaka Murakami* 33

Morphological Findings in Ebstein's Anomaly. *Eduardo Otero Coto, Manuel Quero Jimenez, Phillip B. Deverall, and A. Camanas* 43

The Anatomic Correlate of Ventricular Dysfunction in Tetralogy of Fallot. *Jami G. Shakibi, Iraj Aryanpur, and Iraj Nazarian* 53

Importance of Heart Weight, Weights of Cardiac Ventricles and Left Ventricle Plus Septum / Right Ventricle Ratio in Assessing Cardiac Hypertrophy. *S.K. Dadgar, and S.P. Tyagi* 63

Inhibition of Constrictor Responses of Dog Coronary Artery by Atropine. A Possible Effectiveness of Atropine on Variant Form of Angina Pectoris. *Matao Sakanashi, Terutsugi Furukawa, and Yutaka Horio* 75

Effect of Diltiazem on Coronary Hemodynamics and Its Clinical Significance. *Yoshimasa Yabe, Hiroyuki Abe, Shozo Yoshimura, Akiji Tsuzuku, Motoharu Hasegawa, Yoshihiro Kashiwakura, Chikao Arai, Takeshi Kawasaki, and Masatake Abe* 83

Noninvasive Diagnosis of Pseudoaneurysm of the Left Ventricle. *Irfan Sabah, Junichi Yoshikawa, Hiroshi Kato, Takane Owaki, Koji Yanagihara, Fukumaru Okumachi, and Yoshihiro Takagi* 95

Number 2, March

The Estimation of Heart Weight from Routine Chest X-ray Films. *Koichi Nagasawa, Eiichi Kimura, and Chikio Hayashi* 105

Midventricular Obstruction. *Bahram Eslami, Iraj Aryanpur, Mohammad J. Tabaeezadeh, Massood Alipour, Iraj Nazarian, and Jami G. Shakibi* 117

Cross-sectional and M-mode Echocardiographic Study on Ventricular Septal Defect. *Norio Hibi, and Tadashi Kambe* 127

Electrophysiologic Study and Prognosis of Chronic Bifascicular Block. *Hiroshi Inoue, Keiji Ueda, Shin-ichiro Ohkawa, Chizuko Kamata, Jun-ichiro Mifune, Masaya Sugiura, and Hiroshi Matsuo* 141

Change in Plasma Renin Substrate Level after the Intravenous Furosemide Ad-

ministration. *Yoshihiro Kato, Masaharu Ikeda, Teruo Sakai, and Kikuo Arakawa* 153
The Effect of Phenoxybenzamine on the Pulmonary Vascular Bed in Surgically Corrected Ventricular Septal Defect Associated with Pulmonary Hypersion. *Kyoichi Ogawa, Tetsuo Yamamoto, Sakae Asada, Seizo Iwai, Akira Toriyama, Kazuhiko Horikoshi, Masahiro Yamaguchi, and Ken Kimura* 157
A Clinicopathological Study on 25 Cases of Complete Left Bundle Branch Block. *Masaya Sugiura, Keisuke Hiraoka, Shin-ichiro Ohkawa, Keiji Ueda, and Ayako Toku* 163
Concentration of Myocardial Cyclic AMP and Ventricular Fibrillation Induced by Aminophylline. *Masahiko Sugiura, Kouichi Ogawa, and Noboru Yamazaki* 177
Effects of Nerve Stimulation and Drugs on the Release of Histamine and Norepinephrine from the Isolated Heart. *Stewart C. Harvey* 183
The Effects of Angiotensin II and Indomethacin on the Pulmonary Arterial Prostaglandin E Levels and Pulmonary Circulation in Dogs. *Takayuki Ito, and Kouichi Ogawa* 195
Effect of Graded Coronary Constriction on the Flow Reserve in Regional Myocardium in Dog. *Shoichi Haraoka, Daiji Saito, Shozo Kusachi, Taiji Sogo, Nobuyuki Yamada, Osamu Nishiyama, and Koichiro Yasuhara* 207
Absence of Acute Cardiac Effect of Triiodothyronine in Isolated, Blood-perfused Canine Atrium. *Miyoharu Kobayashi, Yasuyuki Furukawa, and Shigetoshi Chiba* 219
Two Cases of Rubella Infection with Cardiac Involvement. *Toshifumi Fujimoto, Chigusa Katoh, Hirokazu Hayakawa, Mannosuke Yokota, and Eiichi Kimura*.... 227

Number 3, May

The Natural History of Rheumatic Fever and Rheumatic Heart Disease in the Orient. *Hung-Chi Lue, Chiung-Lin Chen, Huoyao Wei, Masahiko Okuni, Luis M. Mabilangan, Duangsuda Dharmasakti, and A. Hanafiah* 237
Hemodynamic Effects of Pentazocine in Acute Myocardial Infarction. *Gerd Rettig, Hans-Dieter Hufnagl, Gerd Fröhlig, Hermann Schieffer, and Ludwig Bette*.. 253
The Effect of Propranolol on Left Ventricular Function at Rest and during Exercise in Patients with Ischemic Heart Disease. *P. Jebavý, J. Ressl, and R. Jandová* 261
Electrophysiologic Effects of Lidocaine in Children. *Jami G. Shakibi, and Iraj Aryanpur* 271
Echo- and Phonocardiographic Studies in Patients with Lillehei-Kaster Aortic Valve Prostheses. *Suman Vardan, Robert Warner, Sakti Mookherjee, Mary Mead, and Anis I. Obeid* 277
Technique of Echographic Examination of Right Ventricular Wall Thickness from the Right Sternal Border. *Sonia Chang, Susan Roberts, John K. Chang, Martha Kleinberg, and Ramon Rodriquez-Torres* 289
Reflex Vasoconstriction to a Cold Stimulus for Non-Invasive Evaluation of Neurovascular Function in Man. *Yoshifusa Aizawa, Akira Shibata, Masa-*

ki Tajiri, and Yoshihei Hirasawa 301
The Evaluation of Plasma Dopamine β-Hydroxylase Activity in Essential and Secondary Hypertension. *Fumiko Iseki, Masato Kuchii, Ichiro Nishio, and Yoshiaki Masuyama* 307
Effects of Various Stimuli on Plasma Dopamine β-Hydroxylase Activity in Essential Hypertension with Respect to Aging and Hypertension Severity Index. *Fumiko Iseki, Masato Kuchii, Yasumasa Miyamoto, Toshiaki Tamaki, Ichiro Nishio, and Yoshiaki Masuyama* 321
The Fast Fourier Transform in the Analysis of the Normal Phonocardiogram. *C. Longhini, F. Portaluppi, E. Arslan, and F. Pedrielli* 333
Influence of Ouabain on the Force-frequency Relationship in Cardiac Muscle. *Pawan K. Singal, and Kailash Prasad* 341
Onion, Garlic, and Experimental Atherosclerosis. *G. S. Sainani, D. B. Desai, M. N. Natu, K. M. Katrodia, V. P. Valame, and P. G. Sainani* 351
Comparison of Ejection Fraction and Segmental Circumferential Fiber Shortening Velocity in the Anesthetized and Conscious Canine. *Michael M. Laks, Liz Greenless, and Daniel Garner* 359
The Effect of Angiotensin-Converting Enzyme Inhibition on Regional Blood Flow in Salt-Depleted and Salt-Loaded Normotensive Conscious Rats. *Keisuke Nishiyama, Tadanao Takeda, Yuji Nakamura, Masao Ishii, Hiroaki Matsuoka, Atsuo Goto, Kenjiro Kimura, Yasunobu Hirata, and Satoru Murao* 367
Primary Angiosarcoma of the Heart. *Kusum Angrish, S. C. Manchanda, S. K. Shankar, and P. Chopra* 375
Foreign Body in the Main Pulmoary Artery. An Unusual Complication of Pudenz-Shunt. *Yüksel Bozer, Nevzat Aygen, Ali Apikoglu, Emin Özdogan, and Kemal Benli* 381

Number 4, July

Incidence of Sudden Death among Patients with Premature Ventricular Contractions. An Epidemiological Study. *Franco Rengo, Bruno Trimarco, Massimo Chiariello, Giuseppe Morrone, Massimo Volpe, Bruno Ricciardelli, and Mario Petretta* 385
Pulmonary Hemodynamics in Primary Pulmonary Hypertension. *Nariaki Kanemoto and Hiroshi Sasamoto* 395
Ultrasonodiagnosis of Subclinical Heart Failure by Increasing Afterload with Angiotensin II. *Hisashi Kanaya and Kikuo Arakawa* 407
Presystolic Pulmonary Valve Opening in Constrictive Pericarditis. *Chujiro Tanaka, Masaki Nishimoto, Kazuhide Takeuchi, Kohtaro Fukukawa, Seiki Kawai, Hisao Oku, and Yoshiyasu Ikuno* 419
Pathological Studies in Experimental Candida Endocarditis. *Yousef Al-Doory, Leopoldo H. Paasch, Bernard C. Zook, and Robert Rhorer* 427
Familial Heart Block and Sick Sinus Syndrome of Adult Onset. Report of Two Families and Review of the Literature. *Toshiaki Kiriyama, Takaaki Mizutani, Keiichi Kakusui, Masaru Wada, Tsugio Isoda, Masashi Inoue, Tomoko Okabe, Shigemi Taniguchi, and Toshiro Kuribayashi* 441

Non-Invasive Determination of Left Ventricular Diastolic Compliance. *Teruo Fukumoto, and Hugo Kesteloot* 461
Glycyl-prolyl-p-nitroanilidase (GPN-Aase) Activity in Cardiovascular Diseases. *Kouichi Ogawa, and Toshiharu Nagatsu* 469
Changes of Ventricular Monophasic Action Potential Duration by Stellate Ganglion Stimulation in Dogs. *Tsunetaka Matoba, Hironori Toshima, Kinshi Nagae, and Seiichiro Yamazaki* 477
Coronary Collateral Circulation as an Important Factor to Modify the Ischemic Injury of the Myocardium in Coronary Ligated Dogs. *Tetsuo Mizutani, Yutaka Katada, Kishio Maekawa, Mitsuhiro Yokoyama, and Hisashi Fukuzaki* 485
Proximal His-Purkinje Conduction Defects Due to Peripheral Myocardial Ischemia and Infarction. *Benjamin J. Scherlag, Ronald R. Hope, and Ralph Lazzara* 495
Inhomogeneous Spread of Excitation in Canine Purkinje Fibers. *Takeshi Shimizu, Nobuyuki Iwamura, Junji Toyama, and Kazuo Yamada* 511
Effects of Indomethacin on Renal Hemodynamic Alterations Caused by Arterial and Ureteral Pressure Changes in Rabbits. *Chikara Aizawa, and Nishio Honda* 523
Electrophysiologic Effects of Pindolol on Atrioventricular Conduction in Canine Heart. *Takemi Arakawa, Tadashi Kambe, and Nobuo Sakamoto* 537
Effects of 2-Nicotinamidoetyl Nitrate (SG-75) on Dog Coronary Artery and Cat Papillary Muscle. *Matao Sakanashi, Haruo Araki, Yutaka Horio, and Fumio Takenaka* 549
Effects of Free Fatty Acids on Experimentally Infarcted Myocardium. *Hiroshi Hasegawa, Taro Ishiyama, Yoshiharu Morita, Yoshie Hatanaka, Teiichi Ueno, Junichi Azuma, Takuji Tanimoto, Kyoko Ogura, Nobuhisa Awata, Akihiko Sawamura, and Yuichi Yamamura* 557
Electrophysiological Studies in Two Patients with Dystrophia Myotonica and Atrioventricular Conduction Block. *D. E. Ward, A. J. Camm, and D. S. Tunstall Pedoe* 571

Number 5, September

Echocardiographic Evaluation of Right Ventricular Anterior Wall Motion in the Wolff-Parkinson-White Syndrome. *Michimaro Okumura, Iwao Sotobata, Shinobu Isomura, Teruo Kondo, Satoshi Okajima, Tomoyoshi Shino, Yoshihiro Koike, and Hitoshi Hishida* 577
Computer Analysis of Vectorcardiograms in Myocardial Infarction with Special Reference to Polar Vector and Planarity of the QRS and T Loops. *Kazunobu Yamauchi* 587
Antiarrhythmic Effects of L-Penbutolol and DL-Propranolol. Comparison of the Effects of These Two Drugs on Conductivity and Excitability in Canine Heart in Vivo. *Kazuo Yamada, Junji Toyama, Nobuo Niimi, Junichi Sugenoya, Miyoshi Ohno, and Satoru Sugiyama* 603
Beneficial Effect of Diltiazem, a New Antianginal Drug, on Angina Pectoris at

Rest. *Motoomi Nakamura, and Yasushi Koiwaya* 613
Some Observations on Serum Concentrations of Digitoxin and Digoxin. *Masana Takahashi, Toshikatsu Sada, Yoshihiro Taneichi, Fujiko Okabe, Yoshio Ito, and Akira Morishima* 623
Individual Renin-Aldosterone Responses of Clinically Healthy Young Japanese Men to Dietary Sodium and Posture. *Terukazu Kawasaki, Kenshi Kumamoto, Koshiro Fukiyama, Yasuhiro Noda, Shuichi Takishita, and Teruo Omae*.... 631
Lysosomal Hypothesis in Evolution of Myocardial Infarction. Subcellular Fractionation and Electron Microscopic Cytochemical Study. *Minoru Okuda, and Allan Lefer* 643
Protection of Chlorpromazine-Induced Arrhythmia by Flavin-Adenine-Dinucleotide in Canine Heart. *Satoru Sugiyama, and Takayuki Ozawa* 657
A Comparison of Enzyme Activity for Energy Production in the Myocardium and Conduction System. *Makie Higuchi, Katsuhide Nishi, and Fumio Takenaka* 667
Cross-Sectional Echocardiographic Findings of Left Ventricular Thrombi in a Ten-Year-Old Patient with Cardiomyopathy. *Sadayuki Suzuki, Masayoshi Yanagisawa, Sadayuki Yano, Kouichi Itoh, and Keisuke Kotohda*..... 675
The Spontaneously Hypertensive Rat (14). Proceedings of XIV Annual Scientific Meeting of the Council for the Spontaneously Hypertensive Rat (SHR), November 3–4, 1978, Kyoto 681

Number 6, November

Arrhythmias in Primary Pulmonary Hypertension. *Nariaki Kanemoto, and Hiroshi Sasamoto* 765
Renin Response to Upright Posture in Varying Sodium Balance in Normal Young Japanese Men. *Kenshi Kumamoto, Koshiro Fukiyama, Yasuhiro Noda, Terukazu Kawasaki, Shuichi Takishita, and Teruo Omae* 777
Electrophysiologic Effects of Verapamil in Children. *Jami G. Shakibi, Iraj Aryanpur Kashani, Mohammad Mehranpur, and Ali Yazdanyar* 789
Effect of Hypothermic Anoxic Arrest on Myocardial Contractility in the Isolated Blood-Perfused Canine Left Ventricular Muscle. *Hiroshi Shida, and Miyoharu Kobayashi* 803
Left Ventricular Function and Power Distribution during Ejection Period in Patients with Cardiac Diseases. *Shigenori Morooka, Yutaka Takabatake, Tadashi Koide, Masahiko Iizuka, Yasumi Uchida, Katsuhiko Ozeki, Masaaki Kakihana, Takashi Serizawa, Akihito Kato, Shugo Tanaka, and Satoru Murao*.. 813
Noninvasive Doppler Ultrasound Evaluation of Aortocoronary Bypass. *J. Fabián, Q. Vo, J. Vojaček, A. Grošpic, I. Přerovský, A. Belán, and L. Hejhal*.. 823
Histopathological Study on the Conduction System of Complete Right Bundle Branch Block. With Special References to Configuration of QRS Complex. *Keisuke Fukuda, Yasuro Nakata, Ryozo Okada, and Toshitaka Takagi* 831
Apparent Suppression of Ventricular Parasystole by Cardiac Pacing. *Akira Furuse, Goki Shindo, Haruo Makuuchi, Masahiro Saigusa, Hiroshi Matsuo, Kan*

Takayanagi, and Hiroshi Inoue 843
Estimation of Body Water and Salt Contents from Plasma Sodium, Protein Concentrations, and Hematocrit. *Toshiro Sato, Noriaki Ikeda, Masuo Shirataka, Hideo Miyahara, Harukazu Tsuruta, and Takao Wada* 853
Effects of Nitroglycerin, Adenosine, Noradrenaline, and Isoproterenol on the Myocardial Oxygen Tension. *Hiroto Matsuda* 867
Effects of 2-Nicotinamidoethyl Nitrate on the Cardiovascular System. *Yoshito Nakagawa, Keisuke Takeda, Yumi Katano, Tokumasa Tsukada, Toshikazu Kitagawa, Takeshi Otorii, and Shoichi Imai* 881
Cardiovascular Anomalies in Conjoined Thoracopagus Twins. *U. Sabherwal, R. Tandon, and P. Chopra* 897
A Case of Variant Angina with Normal Coronary Arteriogram Who Developed Acute Myocardial Infarction and Cerebral Embolism. *Joji Ando, Shinji Kimura, Takeshi Kobayashi, Yoshinori Tanabe, and Hisakazu Yasuda* 907
